

Hybrid **multi-norm** protective suit made of modacryl and cellulose fibres which ensure a high level of protection. Available in blue-blue combination in comfortable design.

Material:

54% modacrylic, 44% cellulose, 2% Belltron, weight 260 g/m²

Hybrid fabric made of combination of several synthetic inherently non-flammable fibres and natural cellulose. Permanently flame resistant woven material.

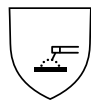

Use:

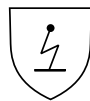

GoodPRO FR10 Otakar is a universal multi-norm protective suit with a wide range of use. Designed for petrochemical and gas industry, power engineering, refineries and ADR transport.
